

HMC-Memo-005-Invite-Tree

MEMORANDUM

TO: Everyone
FROM: Abner Coimbre
DATE: Sunday March 29th, 2026
SUBJECT: Invite someone to our chat server!

Dear Handmade Cities,

Are you a **VERIFIED HUMAN** on our [Handmade Revolt?](#)

Now you can invite fellow humans to the chat server! Visit handmadecities.com/chat and select **Invite Someone**:

Handmade Revolt

Join our community chat or help it grow by inviting someone you trust.

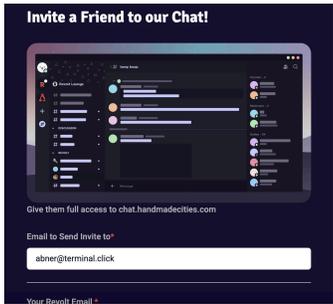

Apply to Join

New to the community? Submit an application to join our Revolt chat server.

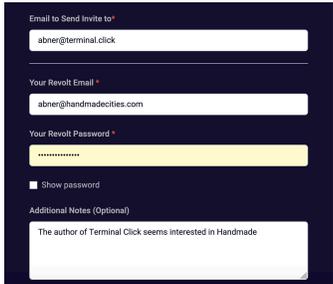

Invite Someone

Already a member? Vouch for someone you know and send them an invite code.

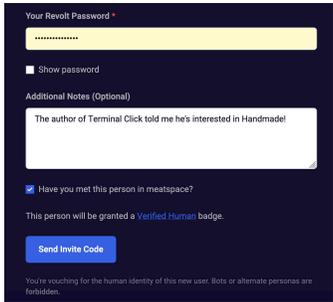

Enter the email of the person you wish to invite:

Then put in your Revolt credentials. This is the same email / password from chat.handmadecities.com:

If you've met this person in real life, you should mention this fact:

Finally, hit the **Send Invite Code** button and you're good to go!

Note that you're *vouching* for this new user: I've implemented an invite tree [adapted](#) from Lobsters. The ultimate goal is maintaining a high-trust environment, because everyone in the community is not only a well-known human being, but we're also accountable for those we've let inside.

Thank you for helping us grow responsibly.

Much obliged,

Abner Coimbre, Founder

Seattle, WA
